

"Scent-sational" Butterflies

A swarm of pretty-smelling butterflies is about to flutter into your classroom! Copy the butterfly pattern below on colorful tagboard to make a class set. Give each student a copy of the pattern and have him cut it out. Instruct him to color the butterfly body and draw a face. Have each child apply a generous amount of glue to each wing and then spread it with his finger. Next, have him add pieces of colorful potpourri to each wing. Allow the glue to dry and then hang each butterfly from the ceiling. Smells lovely!
